Step by Step Instructions

Case 1200 Row Unit

1. Assemble the button switch into the bracket as shown on Page 1.
2. Loosely bolt the 7284Y1 to the right side of the lower parallel arm using the provided 3/8" hardware.
3. While the planter is lifted, adjust the switch bracket forward or backward to ensure the switch is fully compressed. Tighten the 3/8" hardware.
