

Step by Step Instructions

Step 1: Install the included mount bracket (405-2924Y1) using the 1/4"x3/4" Bolts and Flange Nuts. Do not tighten bolts.

Step 2: Screw the coupler (229-03-467092221) into the hydraulic motor shaft, tighten. Then place the Dickey John Sensor shaft into other end of the coupler and tighten set screws.

Step 3: Connect the Sensor to the Mount Bracket (405-2924Y1) with the two rubber tabs included in a plastic bag inside the Dickey John Sensor box. Hardware is also included.

Step 4: Tighten all bolts.
