13	525-750	3" Tank Strap Kit	3

Step by Step Instructions

1. Bolt the tank adapter plates (420-5132Y1) to the tank pedestals (421-2424Y1) using the 3/4" X 2-1/2" bolts, flat and lock washers, and nuts. Tighten them down before moving on to the next step.
2. Place the pedestals on the main hitch bar. Using the extra adapter plates, 3/4" x 15" bolts, and remaining 3/4" hardware, loosely attach the pedestals to the hitch. Be sure the rear pedestal is as far back as possible.
3. Loosely bolt the tank cradle onto the pedestals using the provided 5/8" hardware.
4. Place the tank into the cradle lining the tank strap grooves up with the hole pattern in the cradle. Tighten the tank to the cradle using the provided tank strap kits.
5. Tighten all 5/8" cradle hardware, followed by the 3/4" x 15" bolts. Be sure the tank and cradle are clear of all obstructions.
6. Tighten the tank again after first filling.
